

TLI30319

Certificate III in Supply Chain Operations

Your essential introduction to the world of Transport, Warehousing & Logistics.

This course offers an insight to the importance of accurate inventory and logistical data throughout all stages of the supply chain as well as the vital role of preparation and distribution of goods. Focusing on small or large enterprise, students receive a thorough insight into how an efficient warehouse can help an organisation to maintain product schedules and avoid supply issues. If you're looking to formalise your training or join the transport and logistics industry, this is the qualification for you!
